**EXAMINER'S COMMENT and REASONS FOR ALLOWANCE**

***Drawings***

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the following features must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

a. in claim 1,

"the controller also being configured to provide to the data exchanging device a third status indication, the third status indication being provided to the data exchanging device prior to receipt by the controller of the second status indication, the third status indication indicating whether the system successfully stored the data in the system";

and,

b. in claim 6,

"providing from the controller to the data exchanging device a third status indication, the third status indication being provided to the data exchanging device prior to the receipt by the controller of the second status indication, the third status indication indicating whether the system successfully stored the data in the system";

as to the above limitations, the drawings fail to show or depict the feature wherein the third status indication is being provided prior to the receipt of the second status indication -- while it is acknowledged that the second and third status indications are shown in the apparatus depiction in Figure 4, nevertheless, the claimed "prior to" timing feature involving the third status indication is not shown in any of the drawings.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

**INFORMATION ON HOW TO EFFECT DRAWING CHANGES**

Art Unit: 2186

**A. Correction of Informalities -- 37 CFR 1.85**

New corrected drawings must be filed with the changes incorporated therein. Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin. If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability. The drawings should be filed as a separate paper with a transmittal letter addressed to the Official Draftsperson.

**B. Corrections other than Informalities Noted by Draftsperson on form PTO-948.**

All changes to the drawings, other than informalities noted by the Draftsperson, **MUST** be made in the same manner as above except that, normally, a highlighted (preferably red ink) sketch of the changes to be incorporated into the new drawings **MUST** be approved by the examiner before the application will be allowed. No changes will be permitted to be made, other than correction of informalities, unless the examiner has approved the proposed changes.

**Timing of Corrections**

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.185(a). Failure to take corrective action within the set (or extended) period will result in **ABANDONMENT** of the application.

**REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance:

In independent claims 1 and 6 directed towards a system and method that may be used to execute a memory operation, the following limitations,

Claim 1,

"the controller also being configured to provide to the data exchanging device a third status indication, the third status indication being provided to the data exchanging device prior to receipt by the controller of the second status indication, the third status indication indicating whether the system successfully stored the data in the system";

Art Unit: 2186

Claim 6,

"providing from the controller to the data exchanging device a third status indication, the third status indication being provided to the data exchanging device prior to the receipt by the controller of the second status indication, the third status indication indicating whether the system successfully stored the data in the system";

such limitations taken in combination with the remaining limitations are not found in and are not obvious in view of the prior art of record.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Elmore whose telephone number is (703) 308-6256. The examiner can normally be reached on Mon-Fri from 7:30-4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matt Kim can be reached on (703) 305-3821.
